CAMP FIRE HIRE – GUEST FACT SHEET

There's nothing better than ending the day around a crackling camp fire under the stars.
At Pine Country, we're proud to offer guests this experience safely and responsibly.
To comply with local council regulations, permits and insurance requirements, the following conditions apply.

IMPORTANT INFORMATION

No BYO fire pits permitted
Personal fire pits are strictly prohibited, this includes personal fires for cooking. All our fire pits are council approved, inspected and covered under our council operating permit and comply with our insurance. Sorry we don't make these rules, but we definitely abide by them.

Camp fires available during approved periods only
Fire pits can only be hired outside the declared fire danger season and in accordance with council regulations and seasonal conditions. Fire pits are usually available for hire between May - Oct, but please check with reception for availability. Campfires are not permitted on declared Total Fire Ban days.

Terms & Conditions apply
All guests must read and sign the Camp Fire Terms & Conditions prior to use.

Glamping Guests
Glamping tents operate under a separate council-approved permit and are authorised to have camp fires year-round under strict safety conditions, council inspection and seperate insurance approval.
These conditions do not apply to standard camp fire hire.
